Drawings

2. The drawings filed on February 15, 2002 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

REASONS FOR ALLOWANCE

Regarding claims 63 and 158, as noted therein, the claimed invention requires *inter alia* a listing database containing wireless phone numbers and a connect field that stores information instructing said communication system as to whether to mask a subscriber's wireless phone number to a requester and to the customer representative whereas the closest prior art Daudelin and Zellner only teach of a listing database containing phone numbers and determining whether or not to disclose the phone number to a request and do not teach or suggest a listing database containing wireless phone numbers and a connect field that stores information instructing said communication system as to whether to mask a subscriber's wireless phone number to a requester and to the customer representative who is handling a request for a requester in combination with the rest of the limitations in the claim.
